- * To transfer this design onto computer printable iron-on paper, simply follow the paper manufacturer's directions! The design has already been flipped for you.
- * To transfer this design onto fabric for painting, simply print the design & then use a fabric transfer pen to outline the motif. Flip the paper over, center the design onto a white fabric surface and then transfer with an iron following the manufacturer's directions. Paint with fabric paints
- * My original design was painted with a pink, lavender, yellow and baby blue for the cat. For the background area, I stippled lavender behind the cat. When dry, you can outline with Black paint & a fineline brush or use a Black Textile marker. Use a textile marker or paint to add the lettering.
